Reliant Fabrics offer the highest comfort levels, meeting industry standards at the most competitive pricing. //

Re engineering a classic...

FR fleece has undergone a “big time” improvement thanks to Innovative Textiles (ITI) and a little re-engineering. We are introducing our new Reliant™ High Performance (HP) Fleece - taking our classic 14.25 oz., FR fleece to a whole new level of protection and performance! Reliant™ HP Fleece fabric offers the same weight you’ve come to love, while significantly improving the arc protection value you rely upon when doing your job.

....with a whole new attitude.

Reliant™ HP Fleece was re-engineered to meet today’s end user demands for improved performance and value in the garments they wear. ITI’s new 14.25 oz fleece fabric offers just that; Inherent FR, incredible comfort, increased arc protection, and a garment that feels just like the sweatshirt you wear off the job!

Reliant™ HP Fleece exceeds industry standards for quality, critical performance such as flame and arc resistance, comfort and moisture management. Add the personal choice of color and odor control, and the result is the highest degree of wearer acceptance in all the markets we serve.

Our Reliant™ HP Fleece fabric keeps you safe, comfortable and dry, even in extreme on the job conditions - Hot or Cold - and remain fully compliant with current industry standards.

-  Inherently flame resistant fabric for - no drip, no melt technology.
-  33.6 arc rating, NFPA 70E Level 3 fabric.
-  Easy to wash - home laundering and machine washable.
-  Exceptional comfort with a superior hand - designed for a garment that moves with you!
-  Fabric performance that makes your sweatshirt feel like what you wear off the job!
-  Moisture Management that in a performance fabric that is breathable, comfortable, and quick drying.
