

## **Innovative Textiles Inc, Gold sponsor for EEI Fall Conference**

High Point, NC – August 10, 2009, Innovative textiles Inc., (ITI) is pleased to announce it will be participating as a gold sponsor at the upcoming Edison Electric Institute's (EEI) Fall Occupational Safety & Health Committee Conference, to be held October 4 to October 7, 2009, at the Loews Lake Resort Vegas in Henderson, NV.

EEI is the association of [U.S. Shareholder-Owned Electric Companies](#). EEI members represent approximately 70 percent of the U.S. electric power industry. EEI provides public policy leadership, critical industry data, market opportunities, strategic business intelligence, one-of-a-kind conferences and forums, and top-notch products and services.

ITI will feature its Reliant™ inherently FR Modacrylic blend fabrics that provide the comfort, and safety sought after by professionals throughout the Electrical Utility industry.

### **About ITI**

Innovative Textiles Inc., is a leader in flame and arc resistant fabrics serving leading manufacturers of protective apparel who service markets such as NFPA Firefighter Station Wear, Electrical Utility, Petro-Chemical and General Industrial. Our internal experience using Modacrylic blended yarns to produce inherently FR fabrics is the most extensive in the FR industry. ITI's principal brands include Reliant™ and EMC™.
